

RUTHRABALAN MANTHRAMOORTHY

Business Analyst | Data Analytics | AI & Machine Learning

Mumbai, Maharashtra | +91 98194 32028 | ruthrabalan23@gmail.com | [linkedin.com/in/ruthrabalan-manthramoorthi-561561360](https://www.linkedin.com/in/ruthrabalan-manthramoorthi-561561360)

PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence & Machine Learning with hands-on business analytics internship experience liaising between a business stakeholder and a developer team on requirement gathering, data visualization, and process documentation. Combines a technical foundation in Python, SQL, and Machine Learning with practical business analysis tools (Power BI, Excel, Jira, Zoho Analytics) to translate data into actionable business insights. Seeking a Business Analyst role in a global, cross-functional environment to drive data-informed decision-making.

CORE SKILLS

Business & Analytical: Requirement Gathering, Stakeholder Management, Data Visualization, Data Analysis, Process Documentation, Cross-Functional Communication

Tools & Platforms: Power BI, Advanced Excel, SQL, Zoho Analytics, Jira, Miro

Technical / AI-ML: Python, SQL, pandas, NumPy, scikit-learn, Deep Learning Fundamentals

PROFESSIONAL EXPERIENCE

Business Analytics Intern — Azentra Global *June 2026 – September 2026*

- Worked directly with a real business stakeholder and a developer team to gather, document, and analyze business requirements, translating them into clear specifications using Jira and Miro.
- Designed and maintained dashboards and reports in Power BI and Zoho Analytics, giving stakeholders real-time visibility into key business metrics and supporting data-driven decisions.
- Analyzed the app's tiered pricing structure using SQL and Excel, identifying that the base tier's feature set was cannibalizing upgrades to higher tiers; recommended reducing base-tier features and increasing price 25–30% tier-over-tier to strengthen upgrade incentives and align pricing with value delivered.
- Proposed an updated marketing strategy to accompany the pricing redesign, aimed at improving upgrade conversion and adoption across target regions.
- Liaised between the stakeholder and the developer team throughout a 4-month engagement to align technical implementation with business requirements and keep both sides in sync.

PROJECTS

NeuroCAD-FEA — AI Plugin Research Paper — Independent / Academic

- Authored a research paper proposing an AI-driven plugin for Autodesk Fusion 360 that generates 3D CAD models from design inputs and produces automated structural (FEA) analysis reports.
- Scoped requirements and structured the technical approach end-to-end, applying machine learning concepts to bridge CAD/FEA workflows — demonstrating requirement analysis, technical documentation, and applied research skills relevant to business analysis.

EDUCATION

B.Tech, Artificial Intelligence & Machine Learning — Joy University *Expected 2027*

- Relevant coursework: Data Visualization, Machine Learning, Deep Learning, Python Programming, SQL & Database Management

CERTIFICATIONS

- Power BI for Beginners — Issued May 2026 (Credential ID: 10174624)
